11/16/2016

this school year my son \_\_\_\_\_ who is a 5th grade student wanted to participate in running cross country . He never missed a practice or meet and he works very hard at everything he does . his coach \_\_\_\_\_ has by passed and denied my son the opportunity to participate in the cross country championship run which was held on \_\_\_\_\_ . feels that \_\_\_\_\_ does not like him based on how he engages with other children that participate in cross country, basketball and track and field at \_\_\_\_\_ . For example; last year when \_\_\_\_\_ was in the 4th grade he participated in cross country , basketball and track and field. He informed me that \_\_\_\_\_ never communicates with him as encouraging his desire to compete, allowing him to participate in games and ignores his effort and hard work. \_\_\_\_\_ who is still a child began to show signs of a low self-esteem. Last spring \_\_\_\_\_ participated in outdoor track and field. At the \_\_\_\_\_ outdoor track and field championship that was held at \_\_\_\_\_ Track He participated in the 100 meters ( gold medal - 35 runners competed ), 4x 100 relay (silver medal - 16 schools competed), and the shuttle medley relay( gold medal - 16 schools competed). reference: (directathletics.com). The following day at school \_\_\_\_\_ approached \_\_\_\_\_ ( who did not coach the track team) told \_\_\_\_\_ what he had accomplished he said \_\_\_\_\_ was upset and I asked him to not worry and maybe \_\_\_\_\_ was busy. This year \_\_\_\_\_ wanted to participate in cross country . He attended every practice and ran in every meet. \_\_\_\_\_ interacted with other kids and not once encouraged \_\_\_\_\_ or coached him on improving as a cross country runner. After practice on Tuesday \_\_\_\_\_ got all of the kids together an announced who was going to run in the cross country championship run on Thursday. He did not select \_\_\_\_\_ but, he did select kids that only ran in two events and kids that urinated on the cross country course prior to the beginning of the cross country meet. He offered no encouragement, explanation, or opportunity to \_\_\_\_\_. At this point, \_\_\_\_\_ was devastated and is reluctant to try out for the basketball team because he feels \_\_\_\_\_ do not like him and he will not get fair chance in getting selected to play for the \_\_\_\_\_ boys basketball team. Now I understand if \_\_\_\_\_ finished last in the cross country developmental runs but he was always in the top 10 percent in all of the cross country developmental races ( 80 runners total per race)
